

DISCOVER HOW THE PEGASUS BTX IS TRANSFORMING YOUR GC-MS ANALYSIS **WHY CHOOSE THE PEGASUS BTX?**

**ONE STEP AHEAD IN CHROMATOGRAPHIC ANALYSIS
MEET THE PEGASUS BTX**
COMPACT. PRECISE. GAME-CHANGING.

LECO
EMPOWERING RESULTS

FOR APPLICATIONS WHERE PRECISION IS NON-NEGOTIABLE:

- **Complete data acquisition without compromise**
Exceptional resolution and sensitivity powered by high-speed TOFMS technology.
- **StayClean® ion source**
Less maintenance. More uptime.
- **Effortless GCxGC integration**
Reveal more peaks and gain clearer insights into your data.
- **Compact design**
Save space in the lab without sacrificing performance.

- **Confidently identify and quantify critical compounds**
- **Unlock deeper insights with powerful tools for non-targeted analysis**

The Pegasus BTX from LECO sets a new standard in GC-TOFMS—engineered to handle even the most complex sample matrices and deliver dependable results across diverse fields like metabolomics, aroma profiling, food safety, and environmental analysis.
